Expoagro, a window to the world

It is the most important open-air agro-industrial exhibition in the Region and takes place in March of each year in San Nicolás, Buenos Aires. There, for four days you can see the latest technology in agricultural machinery, supplies, livestock and services; tour the planting plots with standing crops, and participate in international business rounds.

In 2022, it reaped the harvest of two years

Expoagro YPF Agro Edition 2022 marked the return of open-air exhibitions after the pandemic and became a historic edition: 600 exhibiting companies and more than 100,000 visitors participated, resulting in US\$1.5 billion in business volume.

19 countries interested in Argentine technology

With the aim of reinforcing business opportunities between Argentine exhibitors and buyers from around the world, Germany, Australia, Bolivia, Brazil, Chile, Egypt, El Salvador, the United States, Spain, England, Japan, Mexico, Nigeria, India, Italy, the Netherlands, Peru, Russia, Thailand, South Africa, the European Union and Uruguay were present through ambassadors, commercial attachés and buyers.
